Education

Network and Cyber Security Technology Program — 09/2025 – Present
El Sewedy University of Technology — Cairo,Cairo

Incoming undergraduate student in Network and Cyber Security Technology, preparing to develop expertise in networking, cybersecurity fundamentals, and secure systems through applied education.

98% — 09/2022 – 06/2025
We Schools for Applied Technology — El Minya , Cairo

Completed a specialized program in web development and programming, focusing on practical, hands-on learning. Worked on multiple school and team projects, gaining experience in frontend and backend development, problem-solving, and real-world application design. Built a strong foundation in JavaScript, HTML, CSS, React, and Node.js, along with basic software engineering principles.

Projects

Afmoin — 09/2024 – Present
Marketplace Platform for Consumers & Artisans

Afmoin is a web-based platform designed to connect **consumers with skilled artisans and service providers**. The project focuses on creating a seamless marketplace experience where users can discover services, communicate with providers, and manage requests efficiently. Currently under active development, with continuous improvements planned to enhance functionality, scalability, and user experience. The project involves frontend and backend development, responsive UI design, and iterative feature enhancement based on real-world use cases.

Dern_support 02/2024 – 05/2024
IT Technical Support Management System

Designed and developed a full stack web-based solution for an IT technical support company to manage repair services for business and individual customers. The system supports customer account management, service requests, repair scheduling, and service tracking. The project involved requirement analysis, system design, frontend and backend development, database design, and testing, with a focus on usability, performance, and scalability.

Coffee House 02/2023 – 03/2023
Coffee Shop Management Website
Designed and developed a simple website for a coffee house to showcase beverages . The project focuses on presenting coffee products, prices, and basic business information in a clean and user-friendly interface.
